Section 16 - Accessories - Single Stage Alarms for 6900 and later printers

Notes:

Item 1 includes nuts, pillars etc.

It is a replacement for the 24 v single stage alarm output that is standard with the printer. Connects to Linx single stage alarms.

Item 2 (24 v Alarm Connector) is not included with Item 1.

Item 3 (Dust Cap) is included with Item 1.

Notes:

Item 4 includes nuts, pillars etc. It provides the parts to convert a 24 v single stage alarm output to a single stage VFC (Volt Free Contact) alarm output. This provides one output to user supplied equipment such as a beacon or PLC.

The existing alarm PCB is reused.

Item 5 VFC Alarm Connector is included with item 4

Item 3 Alarm Cap is available separately.
